proportionate to the severity of their crimes Because serial killers commit the most bizarre and hideous crimes, they should receive the ultimate punishment according to this principle However, not all serial killers get arrested since they carefully plan out their crimes Those that

Serial Murder: A Forensic Psychiatric Perspective

serial murder (Holmes et al, 2002) This is primarily due to the fact that serial murder is an event with an extremely low base rate and therefore is difficult to study via rigorous scientific methods (Dietz, 1986) While serial murder is a universally terrifying concept, it is an extraordinarily rare event In a study of the

What is Serial Murder? Inside the Mind of a Serial Killer

number of serial murders is still on the rise As we see in the McDonald Triad, the development of the potential serial killer begins with early warning signs While not all kids who torture animals, set fires, and have prolonged bedwetting turn out to be serial killers, such problems should be addressed during childhood since a correlation

Monsters or Victims? What They Are and Who They Kill

- Killers often choose victims who are vulnerable (prostitutes, runaways, etc) Statistically, the average serial killer is a white male from a lower-to-middle-class background, usually in his twenties or thirties Many were physically or emotionally abused by parents Some were adopted As children, fledgling serial killers often set fires,
